5. Reason for cancellation

Upon receipt of several requests from potential tenderers for clarification of selection criteria imposed within the aforementioned tender procedure, the Project team members in consultation with external experts - construction professionals and engineers thoroughly revised given selection criteria. It was concluded that the majority of selection criteria regarding technical and professional capacity of tenderers were demanding and limiting to a certain extent.

In order to eliminate provisions in tender that might prevent fair competition, ensure fair competition and equal treatment of all potential bidders, as well as to stimulate the greater competition and quality of tenderers, the Contracting authority has decided to cancel this tender procedure in accordance with the articles 5.3.10. (and 2.4.13.) of the Practical Guide.

Tender will be altered and re-announced by means of public information at the shortest time. This decision has been made in compliance with sound financial management and principles of economy, efficiency and effectiveness, to get the best value for money and help ensuring that suitably qualified companies will be chosen.
